

ACT BUILDING AND CONSTRUCTION INDUSTRY

**TRAINING FUND
AUTHORITY**

A \$5,000 On-the-Job-Training Incentive is available to employers who employ a 1st year Painter and Decorator apprentice or a 1st year Horticulture (turf or landscaping) apprentice during 2006.

The ACT Building and Construction Industry Training Fund Authority (TFA) recognises that there is a critical skill shortage in the ACT of formally qualified tradespersons in the trades of Painting and Decorating and Horticulture (turf and landscaping).

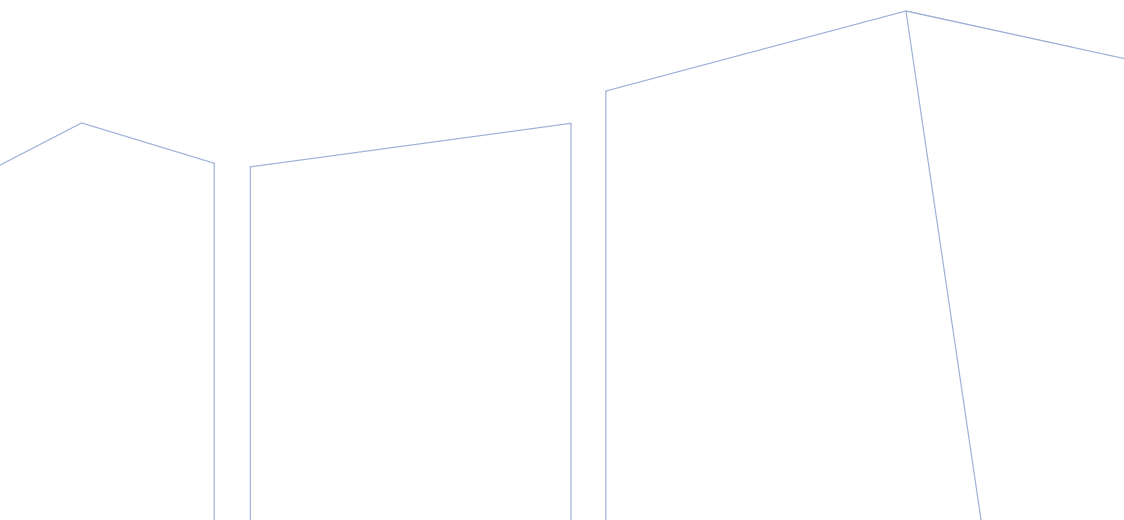

Consequently, the ACT Building and Construction Industry Training Fund Authority will in the year **2006** provide an On-the-Job-Training incentive payment of **\$5,000** (\$2,000 three months after the commencement date and \$3,000 on completion of the first 12 months) to employers of 1st year Painting and Decorating and Horticulture (turf and landscaping) apprentices.

These incentives are in addition to any ACT or Federal Government incentives, which the employer may be eligible to receive.

It is anticipated that with this financial assistance employers will employ Painting and Decorating and Horticulture (turf and landscaping) apprentices therefore, addressing the skill shortage problems that these trades are currently facing now and in the future.

Gary Guy
